# SHWETA

## INDUSTRIAL SOLUTIONS

One Partner. Complete Industrial Solutions.

YOUR ONE-STOP INDUSTRIAL PARTNER

# One source.

# Across your operations.

Flange guards & copper jumpers. Industrial supplies & spares.
QR Intelligence-powered material handling AMC.

### Our Manufacturing Capabilities

Flange guards and copper jumpers for industrial applications.

### Industrial Supplies & Spares

Products and components for plant and warehouse needs.

### MHE AMC with QR Intelligence

Preventive equipment care supported by digital service records.

# Your partner. Your one-stop solution.

One business partner for industrial supplies, manufacturing and equipment maintenance.

Shweta Industrial Solutions is your one-stop industrial solutions partner, bringing flange guard and copper jumper manufacturing, industrial hardware, electricals, safety equipment, spares, warehousing solutions and material handling maintenance together through a single business relationship.

We work as an extension of your procurement and maintenance teams, aligning our support with your operational requirements. By connecting product sourcing, replacement spares and preventive equipment care, we aim to simplify coordination and build a dependable, long-term partnership that grows with your business.

01

## Manufacturing

Flange guards and copper jumpers (bent and strip types), matched to application requirements.

02

## Industrial supply

Mechanical, electrical, automation, safety and warehouse products, alongside equipment spares.

03

## Preventive MHE AMC

Planned maintenance supported by QR-tagged assets and digital service records.

**ONE PARTNER. CONNECTED INDUSTRIAL SOLUTIONS.**

### Consolidated sourcing

Access a broad industrial range through one business partner.

### Coordinated support

Bring supply, spares and maintenance requirements together.

### Long-term partnership

Support evolving operational needs through an ongoing relationship.

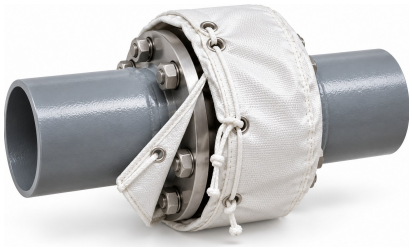

# Manufacturing for industrial needs.

Flange guards, safety spray shields and copper jumpers.

### Stainless steel flange guards

Formed stainless steel band with a mechanical fastening arrangement.

### PTFE flange guards

PTFE-based fabric shields for application-specific flange protection.

### Polypropylene flange guards

Polymer fabric shields selected for compatible process conditions.

### PVC flange guards

Flexible PVC variants for suitable operating environments.

### Polyethylene flange guards

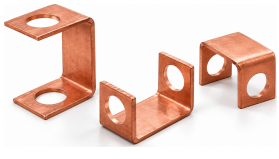

Polyethylene designs to match the specified application.

### Strip-type flange guards

Flexible wraparound strip design with an adjustable fastening arrangement.

## COPPER JUMPERS

Bent-type copper jumpers

Dimensions & hole sizes as required.

Strip-type copper jumpers

Dimensions & hole sizes as required.

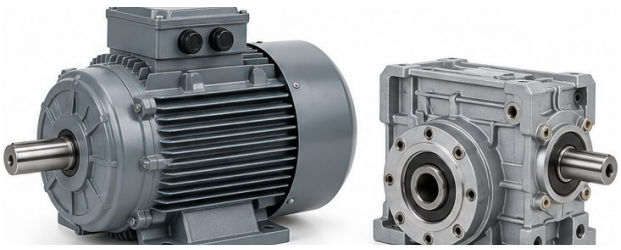

# Essential components. One source.

Mechanical, transmission, piping and sealing products for industrial requirements.

## Bearings & chains

Bearings, chains and connecting links for rotating equipment and mechanical transmission.

## Gearboxes & motors

Bonfiglioli gearboxes and motors for industrial drive requirements.

## Industrial belts

V-belts, timing belts, PU / PVC endless belts and rubberised canvas belts.

## Pipes, fittings & valves

Pipework components and valves for industrial fluid-handling assemblies.

## Gaskets & gland packings

Gasket sheets, cut gaskets and gland packings for equipment sealing.

## Hoses & process essentials

Metallic / PVC hoses, silicone bellows, mesh, fasteners and vibro sifter spares.

Representative product imagery. Supply is matched to the required specification.

# Supporting the whole workplace.

Material handling, electrical, automation, safety and warehouse requirements.

## Material handling equipment

Equipment and spares for pallet movement, lifting and stacking.

## BOPT & stacker wheels

Replacement wheels matched to equipment model, dimensions and duty.

## Electricals, drives & cables

Electrical spares, flexible cables, Siemens spares and Allen-Bradley / Schneider Electric VFDs.

## Sensors & pneumatics

Instrumentation spares, sensors and Festo pneumatic spares for industrial automation.

## Safety & housekeeping

Safety items, protective equipment and materials for workplace housekeeping.

## Warehousing solutions

Storage and warehouse requirements coordinated with material handling needs.

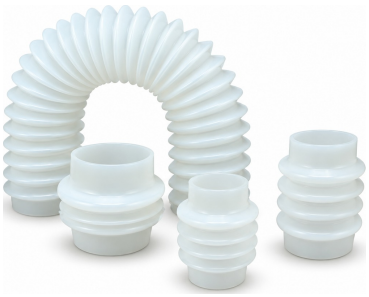

Representative product imagery. Supply is matched to the required specification.

# Bellows for process equipment.

Flexible connections and bellows in a range of shapes and materials.

Anti Static Corrugated Bellow

Flexible Rubber Bellow

Conical Bellow

Silicone Weighing Bellow

Bin Activator Bellow

Fabric Bellow

Illustrative product images. Confirm dimensions, material and equipment compatibility.

# Bellows for process equipment.

Flexible connections and bellows in a range of shapes and materials.

Silicone Sucker Bellow

PVC Bellow

Fabric Reinforced Rubber Bellow

Straight Bellow

PTFE Bellow

Nylon Mesh Bellow

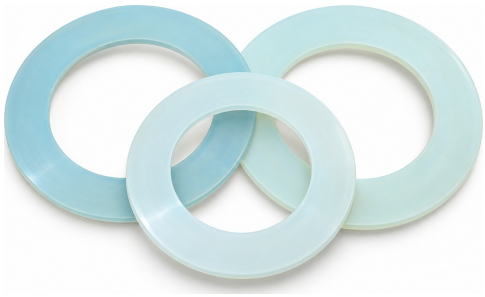

Illustrative product images. Confirm dimensions, material and equipment compatibility.

# Gaskets and sealing essentials.

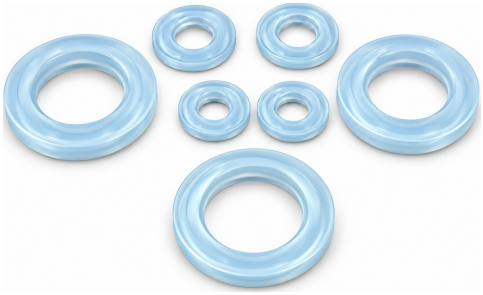

Gaskets, sheets and sealing components for process equipment.

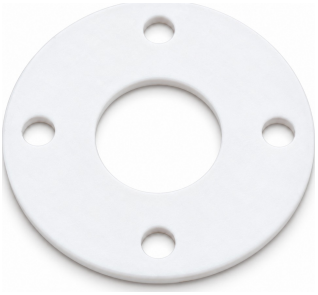

Rubber Sheet

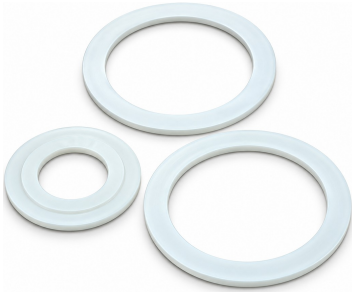

Flange Gasket

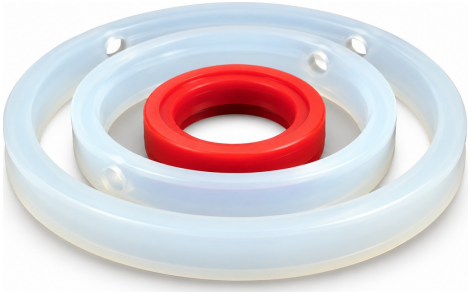

TC Gasket

Gasket with PCD Hole

PTFE Gasket

Butterfly Valve Gasket

Illustrative product images. Confirm dimensions, material and equipment compatibility.

# Gaskets and sealing essentials.

Gaskets, sheets and sealing components for process equipment.

FBD Inflatable Gasket

D Type FBD Gasket

Multi Mill Gasket

Vibro Sifter U Type Gasket

Sight Glass with Gasket Assembly

Rubber Ball

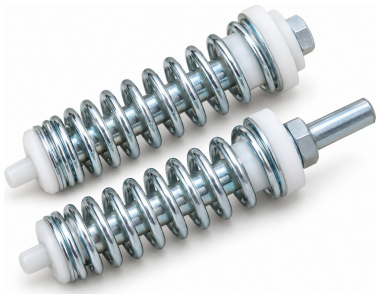

Illustrative product images. Confirm dimensions, material and equipment compatibility.

# Spares for process equipment.

Springs, sieves, clamps and filters for sifter and mill assemblies.

MS Chrome Plated Sifter Spring with MS Bush

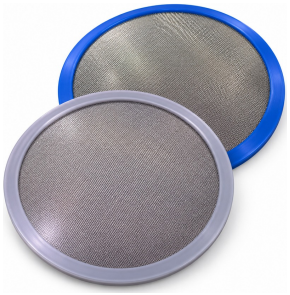

MS Chrome Plated Sifter Spring with Nylon Bush

SS304 Sifter Spring

Vibro Sifter Sieve with Silicone Molding

Static Dissipative Sieve

Vibro Sifter Sieve with Cross Patti Support

Illustrative product images. Confirm dimensions, material and equipment compatibility.

# Spares for process equipment.

Springs, sieves, clamps and filters for sifter and mill assemblies.

Multi Mill Sieve

Co Mill Sieve

SS316 Fabricated Manual Channel Frame (Removable Sieve)

Sifter Clamp

SS 304 Hose Clip

SS Filter

Illustrative product images. Confirm dimensions, material and equipment compatibility.

# Preventive care. Clearer decisions.

Material handling equipment maintenance focused on reducing breakdowns and downtime.

## AMC WITH QR INTELLIGENCE

Every machine tagged. Every service recorded.
Your equipment history and preventive maintenance in one portal.

## Move from reactive repairs to planned care.

Our AMC prioritises preventive maintenance to help reduce unexpected breakdowns and equipment downtime. QR-linked digital records give you a clearer basis for planning service and making maintenance decisions.

01

### A unique QR identity for every machine

Each machine is tagged with a QR code linked to its digital equipment record.

02

### A connected service history

Maintenance processes and service activity are recorded in a digital database, keeping equipment history together.

03

### Your fleet, managed from one screen

Review machine service history and preventive maintenance through a single dashboard / portal for better decision-making.

**PLAN MAINTENANCE. REDUCE DISRUPTION.**

Discuss your fleet, operating hours and maintenance requirements with us.

PRODUCT & SERVICE DIRECTORY

# Your complete industrial range.

Manufacturing, industrial supply and QR Intelligence-powered MHE AMC.

## MATERIAL HANDLING & WAREHOUSING

- Material handling equipment & spares
- BOPT & stacker wheels
- Warehousing solutions

## PIPING, SEALING & PROCESS

- Flange guards - manufactured by us
- Pipes & fittings; all types of valves
- Gland packings
- Gasket sheets & cut gaskets
- Metallic & PVC flexible hoses
- Silicone bellows & gaskets
- Vibro sifter spares
- Wire mesh (SS, GI & MS)
- Fasteners

## SAFETY & HOUSEKEEPING

- Safety items & equipment
- Housekeeping materials

## MECHANICAL & TRANSMISSION

- Bearings; chains & chain links
- V-belts; timing belts
- PU & PVC endless belts
- Rubberised canvas belts
- Couplings & spiders
- Gearboxes & motors (Bonfiglioli)

## ELECTRICAL & AUTOMATION

- Copper jumpers - bent & strip types
- Electrical spares; flexible cables
- Siemens spares
- Instrumentation spares
- All types of sensors
- Allen-Bradley & Schneider Electric VFDs
- Festo pneumatic spares
